International Committee of the Red Cross (ICRC)
Sana'a, Yemen

Subject: Application for ICT Specialist 1 Position

Dear Hiring Team,

I am writing to express my interest in the ICT Specialist position at the ICRC in Sana'a. I have over 9 years of experience working in IT and operations here in Yemen, and I believe my technical skills and hands-on approach make me a great fit for this role.

In my recent work, especially as Head of IT at CEDIU, I was responsible for setting up and maintaining computer networks and equipment from scratch. I'm very comfortable with hardware repairs, troubleshooting software issues, and making sure everything stays online during critical project phases. I also have a lot of experience managing IT inventory and tracking equipment, which I know is an important part of how the ICRC operates.

I am used to explaining technical things in simple terms to help staff members use their equipment effectively. I also have experience dealing with internet service providers and local suppliers to get the parts and services needed to keep an office running smoothly.

I respect the humanitarian work the ICRC does in Yemen and I would be proud to support your team with my technical expertise. I am hard-working, I learn new systems quickly, and I am ready to start immediately.

Thank you for taking the time to look at my application. I hope to hear from you soon to discuss how I can help your ICT department.

Best regards,

Yahya Alshami
